

The South African EA Forum

The EA Forum is a networking event sponsored by The Open Group in South Africa. It started in 2004 and is hosted every second month or so, with events in Durban, Johannesburg and Cape Town. At the EA Forum, industry leaders share their experiences and knowledge of architecture and related topics. Real-world case studies highlight how business problems are solved using the discipline and practice of architecture. The event is also an opportunity for the architecture community members to network and collaborate.

For more information or to submit your presentation topics please contact Stuart Macgregor (stuart.macgregor@realirm.com)

The screenshot shows the top section of the realIRM website. On the left is the logo for "THE Open GROUP". In the center is the "realIRM" logo with the tagline "South African Representatives to THE OPEN GROUP". To the right are navigation links for "Membership", "EA Forum", and "Standards Certification". Further right are social media icons for Twitter, LinkedIn, and YouTube, followed by a search bar. Below the navigation is a dark teal banner with the text "Making Standards Work". The main image is a vibrant, colorful pattern of woven baskets, likely from Africa, with various geometric and abstract designs in shades of red, yellow, green, blue, and purple. At the bottom right of the image, the word "AFRICA" is written in large, white, bold, sans-serif capital letters on a dark teal background.

Membership

Join The Open Group and influence the future of open technology standards and certifications. Engage in networking, gain access to resources, and contribute in our diverse Forums and Work Groups. Read more to explore the vast benefits of our Membership.

EA for Government

Standards

Discover world-class technology standards from The Open Group. Collaborate with global professionals, utilize our renowned standards such as TOGAF, ArchiMate, and IT4IT, and transform your organization's efficiency and interoperability.

EA Forum

Join us at The Open Group Enterprise Architecture Forum in South Africa. Connect with peers, explore real-world case studies, and engage in impactful conversations about the future of Enterprise Architecture.

Join The Open Group African Continental Enterprise Architecture Workstream and help to improve the efficiency and effectiveness of government services in Africa through the creation of a continental government enterprise architecture framework.

Certification

Explore a broad range of international certifications offered by The Open Group, including globally acknowledged TOGAF and ArchiMate programs. Our certifications provide a comprehensive understanding of enterprise architecture and other digital domains.

The Role of Business Processes in Digital Transformation

BCX is a member of The Open Group Architecture Forum and active participant in the Enterprise Architecture Workgroup for Government.

The Role of Business Processes in Digital Transformation

EA Forum – Johannesburg

28 February 2024

● Agenda

- 1 Introduction
- 2 Digital transformation in the context of the Public Sector
- 3 Understanding Business Processes
- 4 Role of Business Processes in Digital Transformation
- 5 Challenges in the Public Sector
- 6 Best Practices and Strategies
- 7 Closure
- 8 Q & A

● Introduction

“Digital transformation is the cultural, organisational and operational **change** of an organisation, industry or ecosystem through the **smart integration of digital technologies, processes** and **competencies** across all levels and functions in a staged way.

Digital transformation **leverages technologies** to **create value for stakeholders**, and to enable **greater agility and resilience** in the face of changing circumstances.”

JISC (2020) Digital at the Core: a 2030 strategy framework for university leaders. Emerge education, Salesforce.org.
