

An Architect's Framework for Navigating Complexity

Deven Gengan
Enterprise Architect – Standard Bank Group

The Open Group

South Africa

The South African EA Forum

The EA forum is a social network event sponsored by the Open Group in South Africa. The EA forum started in 2005 and occurs every second month or so in the major centres with one event each in Durban, Johannesburg and Cape Town. At the EA forum, industry leaders share their experiences and knowledge of architecture and related topics. Real-world case studies highlight how business problems are solved using the discipline and practice of architecture. The event is obviously also an opportunity for peers, colleagues and industry players to network and collaborate.

For more information or to submit your topics please contact Stuart Macgregor:

Leading the development of open, vendor-neutral IT standards and certifications

The screenshot displays the Open Group website with the following elements:

- Header:** THE Open GROUP logo, navigation links (Home, Login, Sitemap), a search bar, and social media icons for LinkedIn, Twitter, and YouTube.
- Navigation Bar:** A blue bar with links for Subject Areas, Get Involved, Standards, Certifications, Events, Services, Software, Publications, and About Us.
- Main Content Area:**
 - TOGAF® User Group Meeting:** A large circular logo for TOGAF USER GROUP and text announcing a meeting on January 30, 2017, in San Francisco, CA, as a free event.
 - News:** A section titled "Updated ArchiSurance Case Study (for ArchiMate 3.0)".
 - Event:** "The Open Group San Francisco 2017" from January 30 to February 2, 2017.
 - Article:** "Pearson VUE: Transitioning The Open Group Examinations from Prometric to Pearson VUE".
 - Blog:** "The Open Group Blog: What is Open FAIR™?" by jim-hietala-vp-business-development-and-security.
- Service Categories:** Four columns with icons and text: "GET CERTIFIED", "BECOME A MEMBER", "THE OPEN GROUP OFFICES", and "OUR STANDARDS PROCESS".
- Member Information:** A section titled "Member Home" with links for "Your Member Home Page", "Your Member Profile", "Elected Representatives", "Our Member Lists", and "Member Newsletters".
- Platinum Members:** Logos for Capgemini, FUJITSU, Hewlett Packard Enterprise, HUAWEI, IBM, ORACLE, and PHILIPS, with the text "All Open Group Members".
- Footer:** Links for Contacts, News, Standards Process, Privacy, and Legal, along with the copyright notice "© 1995-2017 The Open Group".

On the right side of the image, a partial view of another website is visible, featuring the "realIRM" logo and a navigation bar with links for EMMM, ARCHIMATE, NEWS, ABOUT, and CONTACT. It also includes a "JOIN THE OPEN GROUP" button and a "READ MORE" link.

Publications

- The Open Group Publications Catalog offers a wide range of publications complemented by a selected line of memorabilia.
- All items can be accessed by browsing our comprehensive item catalog [using the links on the left](#). You can browse by subject, type, title, catalog number, ISBN, latest titles, popular titles, electronic publications (downloads), publications freely available, and publications free to members.
- To quickly find a specific publication, you can find it [through our item search \(see left\)](#).
- Most of our publications are available electronically, some are also available in hard cover or CD-ROM format.
- Where items are available to purchase we provide links to the appropriate e-commerce.

Hardcopy Books

You can order hardcopy publications from our worldwide publisher, Haren Publishing, and its distributors.

→ Discounts available to members of The Open Group

Latest Titles

The following are the 20 most recent publications.

- ✕ The Open Group Healthcare Forum (21 Feb 2017) [Information Sheets]
- ✕ TOGAF® 9.1 and ArchiMate® 3.0 Harmonization Realization (16 Feb 2017) [Webinars]
- ✕ The Open Group Architecture Tool Certification: ArchiMate® 3 Conformance Requirements (13 Feb 2017) [Certification Program Documentation]
- ✕ Future Airborne Capability Environment (FACE™): Data Architecture (09 Feb 2017) [Snapshots]
- ✕ Capability-Based Planning: The Link between Strategy and Enterprise Architecture (08 Feb 2017) [Webinars]
- ✕ Value Streams (31 Jan 2017) [Guides]
- ✕ IT4IT™ Reference Architecture, Version 2.1 Reference Cards (30 Jan 2017) [Study Materials]
- ✕ The Open Group IT4IT™ Reference Architecture, Version 2.1 (30 Jan 2017) [Standards]
- ✕ The Open Group IT4IT™ Reference Architecture, Version 2.1 (90-Day Evaluation License) (30 Jan 2017)

Practicing Enterprise Architecture...

Deven Gengan

Practicing Enterprise Architecture in any organisation is challenging due to the frequently changing market conditions in both the internal and external environments. Cloud, DevOps, continuous development and other elements add to the complexity that Architects need to navigate through. Thus, it is critical for Architects to use effective decision-making approaches that are adaptable and match the complexity of each situation.

Deven Gengan is an Enterprise Architect at Standard Bank, navigating complexity across SAP ERP, SaaS and Cybersecurity. He is very passionate about architecture frameworks and their applications in real world scenarios. Deven also leads the agile architecture transformation in Standard Bank. He holds a HDE(UKZN), BSc(UNISA), BSc HONS(UNISA) and is TOGAF certified.

Complexity

Introduction

One of the most highly developed skills in contemporary Western civilization is dissection: the split-up of problems into their smallest possible components. We are good at it. So good, we often forget to put the pieces together again (Toffler, 1984)

...Architecture change journey

Complex Adaptive Systems - Introduction

Characteristics

- Interaction
- Autonomy
 - Laws, rules, norms. Intents
- Emergence
 - Attain a goal over time, common behaviour
- Far from Equilibrium
 - Frequent disruptive events
- Nonlinear
 - Insignificant input amplified (butterfly effect)
- Self-organization
 - When disruptive events occur
- Co-evolution
 - Co-evolve with the environment

“A dynamic network of many diverse agents constantly acting and reacting to what other agents are doing. Control is highly dispersed and decentralized. Coherent behaviour varies from competition and cooperation from agents themselves. Simple and individual agent activities gives rise to complex behaviour”

Operating within Complex Adaptive Systems

- Multi-strategy approach
- Contextualise to the situation
- Shared mental models: Values, beliefs, experiences
- Sense making framework

- Multiple experiences: personal, cultural and business
- Adaptive resulting in problem solving styles suited to the context.

- Be the change you seek !!

CYNEFIN - Introduction

<Ku-nev-in>

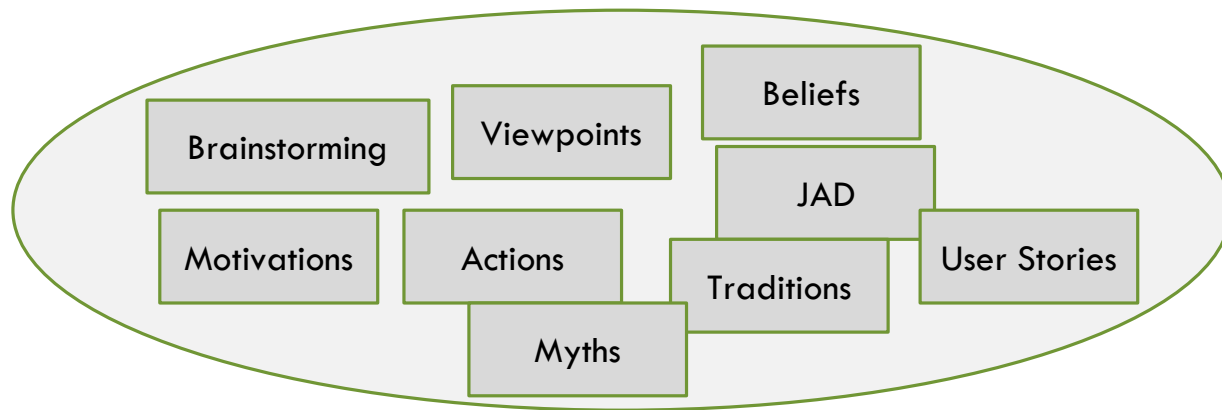

Basics

- Five contexts based on cause and effect
- Obvious/Simple
 - Sense – categorise - respond
- Complicated
 - Sense – analyse - respond
- Complex
 - Probe – sense - respond
- Chaotic
 - Act – sense - respond
- Disorder
 - No clarity – decompose and move to another context

CYNEFIN – How to use it

- Contextualization: collective sense-making as a consequence of discourse....
- Sense making framework: you ideally want to move from one context to another

- Diverse-multiple perspectives to emerge
- Concrete- move away from existing beliefs

CYNEFIN-How to shift your style (1a/4)

CYNEFIN-How to shift your style (1b/4)

	Context Properties	Your Job	Danger Signals	Response to Danger Signals
Simple	<p>Repeating patterns and consistent events</p> <p>Clear cause and effect, right answer exists to all</p> <p>Known Knowns</p> <p>Fact-based management</p>	<p>Sense, categorize, respond</p> <p>Proper processes in place</p> <p>Delegate</p> <p>Communicate, clear, direct ways</p>	<p>Complacency and comfort</p> <p>Desire to make complex problems simple</p> <p>Entrained thinking</p> <p>No challenge of wisdom</p> <p>Overreliance on best practice if context shifts</p>	<p>Communication channel to challenge orthodoxy</p> <p>Stay connected without micromanaging</p> <p>Don't assume things are simple</p> <p>Recognize value and limitations of best practice</p>

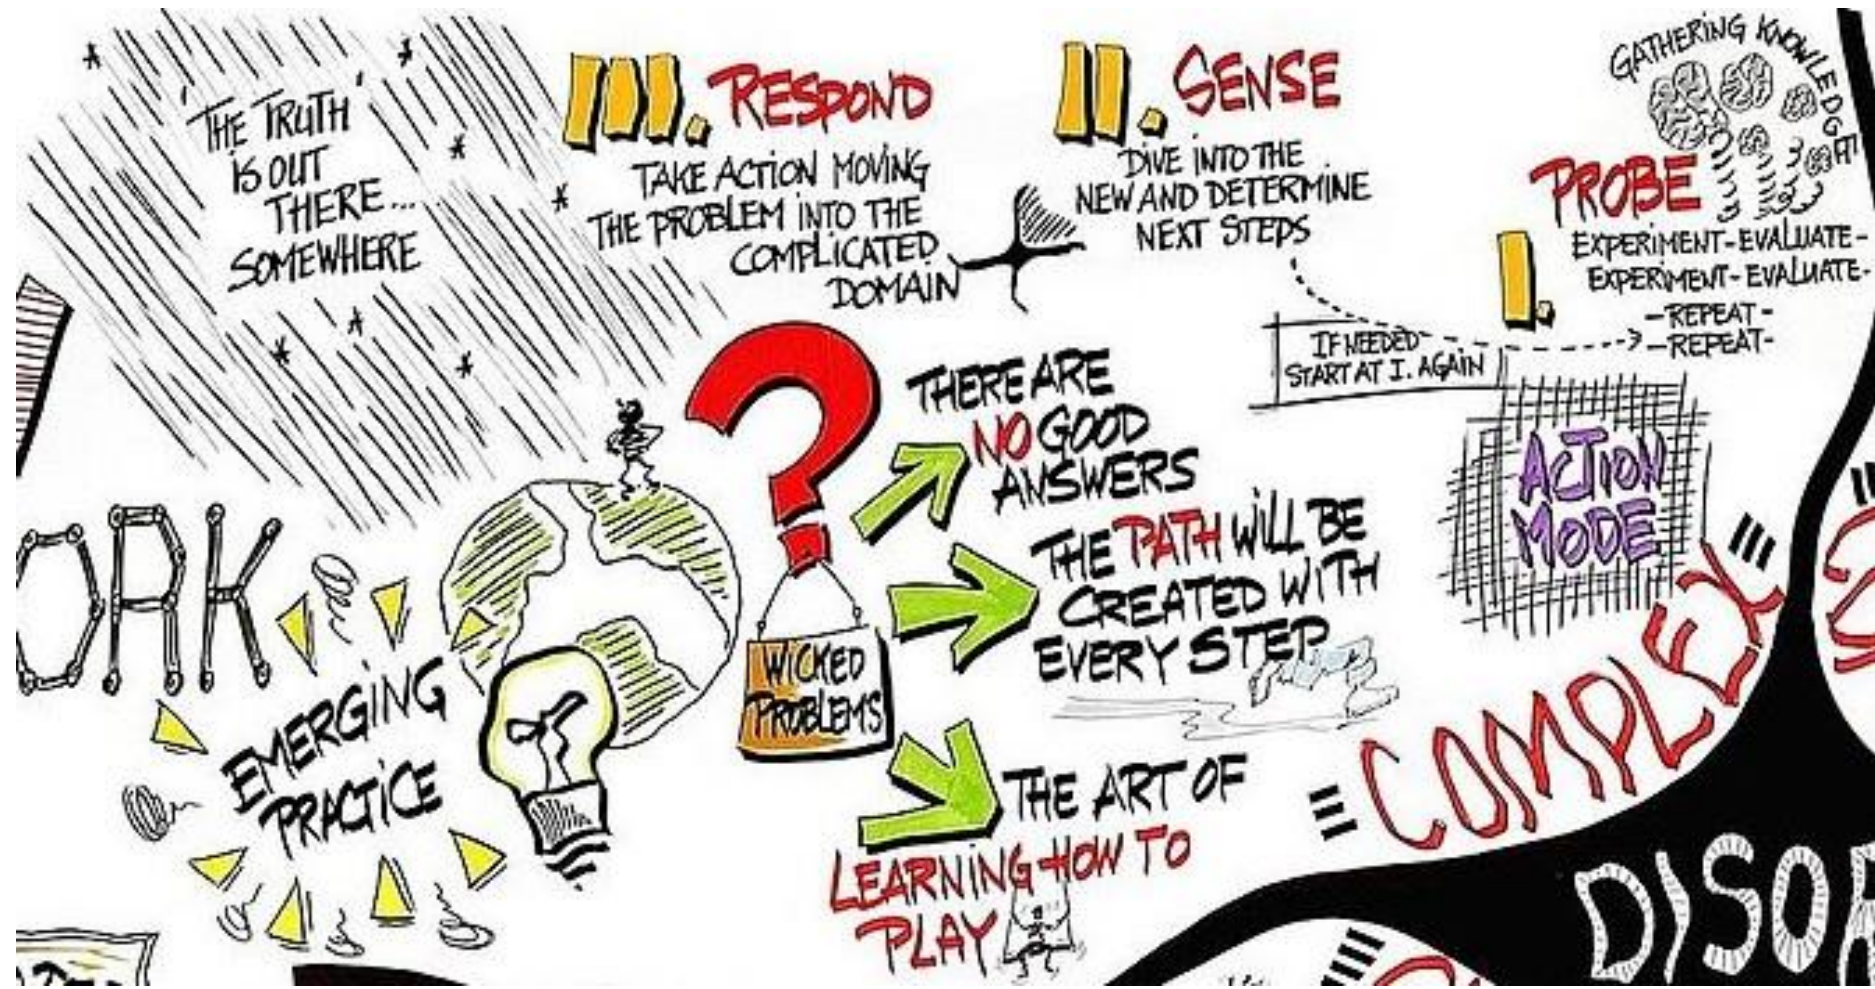

CYNEFIN-How to shift your style (2a/4)

CYNEFIN-How to shift your style (2b/4)

	Context Properties	Your Job	Danger Signals	Response to Danger Signals
Complicated	<p>Expert diagnosis required</p> <p>Cause-and-effect relationships discoverable but not immediately apparent to everyone; more than one right answer possible</p> <p>Known unknowns</p> <p>Fact-based management</p>	<p>Sense, analyze, respond</p> <p>Create panels of experts</p> <p>Listen to conflicting advice</p>	<p>Experts overconfident in their own solutions or in the efficacy of past solutions</p> <p>Analysis paralysis</p> <p>Expert panels</p> <p>Viewpoints of nonexperts Excluded</p>	<p>Encourage external and internal stakeholders to challenge expert opinions to combat entrained thinking</p> <p>Use experiments and games to force people to think outside the familiar</p>

CYNEFIN-How to shift your style (3a/4)

CYNEFIN-How to shift your style (3b/4)

	Context Properties	Your Job	Danger Signals	Response to Danger Signals
Complex	<p>Flux and unpredictability</p> <p>No right answers; emergent instructive patterns</p> <p>Unknown unknowns</p> <p>Many competing ideas</p> <p>A need for creative and innovative approaches</p> <p>Pattern-based leadership</p>	<p>Probe, sense, respond</p> <p>Create environments and experiments that allow patterns to emerge</p> <p>Increase levels of interaction and communication</p> <p>Use methods that can help generate ideas: Open up discussion ; set barriers; stimulate attractors; encourage dissent and diversity; and manage starting conditions and monitor for emergence</p>	<p>Temptation to fall back into habitual, command-and control mode</p> <p>Temptation to look for facts rather than allowing patterns to emerge</p> <p>Desire for accelerated resolution of problems or exploitation of Opportunities</p>	<p>Be patient and allow time for reflection</p> <p>Use approaches that encourage interaction so patterns can emerge</p>

CYNEFIN-How to shift your style (4a/4)

CYNEFIN-How to shift your style (4b/4)

	Context Properties	Your Job	Danger Signals	Response to Danger Signals
Chaotic	<p>High turbulence</p> <p>No clear cause-and-effect relationships, so no point in looking for right answers</p> <p>Unknowables</p> <p>Many decisions to make and no time to think</p> <p>High tension</p> <p>Pattern-based leadership</p>	<p>Act, sense, respond</p> <p>Look for what works instead of seeking right answers</p> <p>Take immediate action to re-establish order (command and control)</p> <p>Provide clear, direct Communication</p>	<p>Applying a command-and-control approach longer than needed</p> <p>"Cult of the leader"</p> <p>Missed opportunity for innovation</p> <p>Chaos unabated</p>	<p>Set up mechanisms (such as parallel teams) to take advantage of opportunities afforded by a chaotic environment</p> <p>Encourage advisers to challenge your point of view once the crisis has abated</p> <p>Work to shift the context from chaotic to complex</p>
